Jamo S 416 HCS 3

This 5.0 Home Cinema package is packed with power! It offers excellent value for the money, without compromising design or sound. In contrast to many other Home Cinema Systems in this price range, the S 416 HCS 3 is so solid acoustically speaking that it can easily out-perform most competitors.

Equipped with rear-firing bass-reflex ports and dual 165mm/6.5in woofers, these powerful floorstanders deliver a punch worthy of any high-octane Hollywood

action film. The centre and satellite speakers come with wall mounts, allowing terrific versatility in terms of placement. Finally, the S 416 HCS 3 comes with a footplate and a curved fabric front, which can be removed, this together give the S 416 HCS 3 a quite characteristic appearance. Additionally, S 416 HCS 3 is ready for the Jamo spike kit, which makes it easier to improve the system's acoustic characteristics.
